EDITORIAL

As very few Editorials are ever read, there seems little point in continuing apart from preventing a large gap appearing on page two.

(excuse the erratic spa--cing the typist is a bit drunk!)

Anyway, Welcome to all first years (except the spotty one in lnu with the eight inch bolt through his ears). If they have managed to read this far, I would like to point out that Cactus almost entirely on art--icles depends (shakes--peare in Cactus?!)

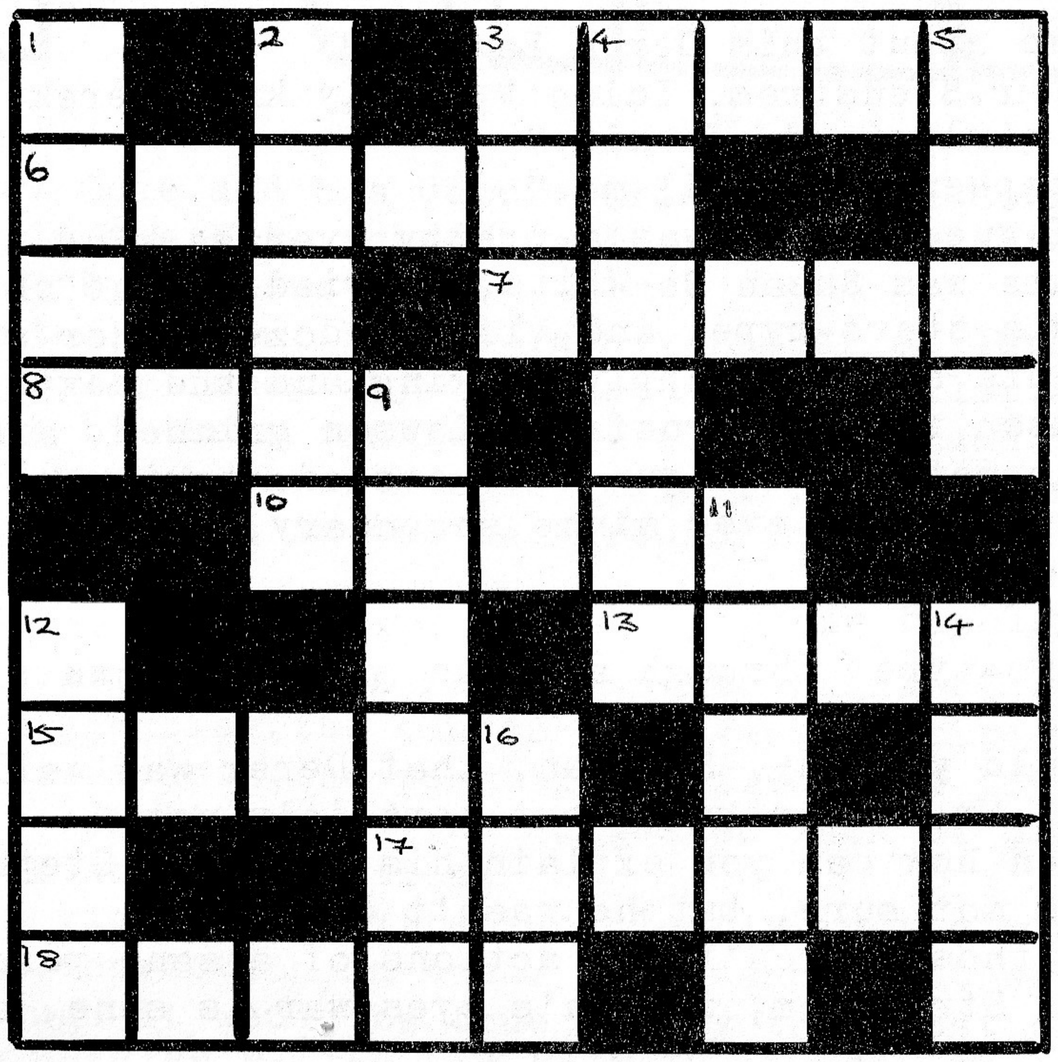

from teachers and pupils Last term we received 3 articles (2 obscene and the other question--ing our parenthood) wkich is not sufficient to run a newspaper. So, please send in any reviews, stories etc. More details are given on page three. If there is anything that is vexing you (quote; Macbeth Act 2, Scene 1) either in the school or out of it please send your views to the debate page via the collecting boxes in the library or in the lower school staff room. Subjects could be;

school uniform, exams, defence cuts, other pol--itical debates, fares charged on London Trans--port, Mr. Izzard's boots etc.

signed,

Ed.

KILLING

"Tell me about this Derek Lawson."

"Well, Mr.Stenstrem, Ididn't really know Derek all that well, maybe you should contact his girlfriend, Jackie."

"No, Stephen, you tell me."

"Well I guess Derek was a pretty average kind of kid...or...so it seemed."

Her name was Susan De-White, married, three children and a loving husband; in other wordsx a stero-type, and, like a dozen other stero-types, tomorrow would never come.One minute she was happly walking and the next-there was a gun-shot, her blouse burst a crimson red.On a roof-top Lawson grinned, aiming his Rugar .44 Magnum rifle on another target.BAM the gun-shot echoed, taking off the top of his head.

"I've known Derek ever since secondary, he was a quiet and inteleigent kid always did well in class."

Lawson found another target, squeezed the trigger, the force of the bullet sent another 'stero-type' through a plate glass windowx ; transparent lances protruded from his chest.

"Would you say, Stephan, that Derek was well....er...mentally retarded?"

"No, Mr. Stenstrem, most certainly not!"

"Then how can you explain his actions, Stephen?"

"I'm not sure, but he wasn't crazy."

"But those weren't the actions of a sane person."

"Mr. Strentrem, in man's eyes war is sane, although it is nothing but mindless slaughter".

"That's different Stephen."

"Is it? Is it really?"

Another three rounds and Derek wiped out a police car, turning it into a blazing wreck, and a fat businessman, a .44 Magnum steel-jacket projectile took his head clean off. Next.

"He was certainly disturbed."

"I don't think so."

"And why not?"

"Everybody's disturbed,you and I the whole world."

"We are not!"

"If you say so, Mr. Stenstrem, if you say so."

Derek saw the S.W.A.T. Squard coming, ducked out the way and reloaded. There was no reality on that roof-top just Derek, all tolled now he had killed a dozen or so 'sterox-types', now there was only one remaining.

"You realise, Stephen, that once he started opening fire from that roof-top he was a dead man."

"Yes, Mr. Stenstrum, I know that and so did Derek."

"You think he had suicide in mind?"

"Of course, nothing good ever lasts forever."

"Pardon?"

"Derek was bored with life, he had to go out in a big way I guess"

"You mean.....you mean...."

"Yes Mr. Stenstrum, Derek was killing for kicks."

THE END.

By Stephen Hooker 5K.

FOR KICKS

POWER WONDER WORKING TOWER

The sixth form is now a powerful,active and working group of young people, many of whom are setting a great example to the younger boys of the school.Many of them are now communicating with the younger boys,and help them in their difficulties that they encounter.This has been a great achievement,compared to previous years,whereby the sixth form felt then,that they were the boss and could get great satisfaction,drag--ging and chasing the boys out of the school at break times,or alternatively report--ing them to their Year-master whereby they would receive just punishment.Now we are glad that we do not have to enforce all our strength and power on the younger boys, at anytime,and this is because we have built up a close contact with the boys of the school and because we treat them with respect and vica-verCA.This is the power,wonder working power,we are achieving by bridging the gap between the sixth form and the rest of the school.Still there is a great deal of improvement to be done.

Because of the co-operation of the sixth form,and because they participate in many events (Ed. ?),this brings about unity (Ed. ?),and because we have this unity we achieve "Power,Wonder Working Power"; in that we have been able to organise many events.

On the 14th September,the sixth form as well as boys from the 4th and 5th years, and Senior girls from Mayfield along with some members of staff held their first "Open Views" meeting on Party Politics.This was the chance we had to ask questions to these politicians,and to critize their points of view if we felt they were just trying to con us to vote for them at the next General election.We were able to put our view point across on many issues that we agreed or disagreed with.

We planned to have our second "Open View" discussion meeting on Thursday I2th Oct--ober at 3.45 Main School Hall. Our topic will be 'Crime and punishment'. We have invited a Chief Inspector from Scotland Yard, a probation officer, and someone from a Magistrate. This will be your opportunity to ask any questions pertaining to the sub--ject and to put forward your own point of view. This can only be a success with the sixth form and your support.

The Sixth form are now working on plans, in which we can help the community, esp--ecially those who are disabled and cannot cope very well on their own. This will include looking after the garden, helping them in their shopping, going out with them for a walk or just talking or doing little odd jobs for them, that will bring great happiness into their lives. These and many more are ways in which the sixth form has power wonder working power, and which we enjoy doing thoroughly.

We also have our social activities,whereby we go to the theatre.Previously we have been yto see "Ipi Tombi" which many of us enjoyed thoroughly,that tears of joy came to our eyes.On the nineteenth of this month we plan to see'Elvis'.We also have in mind shows such as "Godspell","Irene","Evita","Every good boy deserves favours" and "Oh,Calcutta!".We also wish to visit some concerts and exhibitions.

The sixth form has done a great deal in helping the school, and deserve credit. Now as we try to progress in new fields we hope that it will be a success and that it will be recognised by other schools and people, with their good comments about Wands--worth.

Let us all work together in our various ways to promote Wandsworth as the best school in London, by helping and serving others as in our motto 'We Serve'. So that not only the sixth form, but the whole school can rejoice in the Power of Service to others, yes in this wonderful working power!!!!

Head Boy.

CACTUS

Album
Black and White - The Stranglers

This must be the best value for money album of '78. 12 songs and a free E.P. for under £3 almost everywhere. This bargain package even includes an inner sleeve with the words on it. Much in the same style as their first two, but amusingly sick instead of sexist. The white side opens with 'Tank' which is a mild attack of the army, followed by their hit single 'Nice 'n' Sleazy. The third track slows the pace down touching on the morals of modern history, it's called 'Outside Tokyo'. The next is 'Sweden (All quiet on the Eastern Front)', the second of 5 or so songs about war. It's about humour being lost to war and the West ending up as a graveyard of hypochondriac Tombstones, funny. The 5th song on the white side is another about industry. In a future Human labour is out and Robots rule-'Hey (Rise of the Robots)', X-Ray Spex fans note Laura Logic plays saxophone - not bad really. Side one ends with 'Toileron the sea' which at times gets boring, to my ears that is.

The black side opens with the album's best track 'Curfew'. Englandsbeen invaded because Germany failed to protect her borders, she'd gone soft with the American Dream. 'Threatened' comes next, it's message being do what you want as long as someones existance is not threatened. Tracks three and four are joined together for 5 minutes of sickness. They should be called the thoughts of Chairman Cornwell instead of 'Do you wanna/Death and night and blood'. The second to last song is a rework of 'In the shadows' from 'No more heroes' fame. The final track is 'Enough Time?' which rubs in the whole L.P's message again. Russia will walk over us if industry does'nt. The vocals are very good, what Cornwell lacks in guitar playing he makes up with his voice. J.J. Burnel must be one of the best bassists around today. This album proves it, well worth the money.

Mark Bell 6C

1. Single of the Month

Picture This- Blondie. Sexist images bags top ten single, (Yeh, sexist lyrics as well). If you bought a handful of yellow copies you're on a gold mine.

2. Flop of the Month

Walk on by- The Stranglers. Don't bother if you bought Black and White, it's on the free E.P. It gets boring after a couple of plays.

3.

Identity-X-Ray Spex. Better than Kate Bush any day. Even made the top 20-proves it's o.k. In pink vinyl from Reading's in Clapham Junction.

4.

Summertime City-Abba. Bet you it won't be no.1. It must be their worst disc ever; no hope.

5.

David Watts-The Jam. What a let down. The other side "A-Bomb in Wardour Street", rips the pants off it, hands down.

Mark Bell 6C.

REVIEWS

MUSIC-JAZZ ROCK.

by Fuse.

Jazz rock or fusion has been expanding in recent years as a main driving force in progressive music.The combining of these two types of music has caused controversy between Jazz purists and fusion enthusiasts.Jazz purists consider fusion as commer--cial trash.This is not justified because fusion is not justified because fusion is not adcertised to the mass media but to select music magazines and occasionally in music papers.Bands such as Brand X,Nova,Return to Forever and individuals such as Stanley Clark and Chick Corea,have expanded musical ideas which are extremely orig--inal.Brand X, a band formed by Genesis drummer Phil Collins, have made three albums and have become very popular in America on their first tour.Their latest album is a live set which is appropriately called Livestock*.This album is different fromother fusion albums because of its extreme originality.This is mainly due to the bass player (Percy Jones) and the lead guitarist (John Goodsal).Jazz rock is expanding and developing at a rapid rate ,it's here to stay!

*Since this article was handed in BrandX have released another L.P.'Masques'

FILM THINGS

Terry Nation's space adventure series 'Blakes Seven' will be returning to the B.B.C. this Autumn with a new series of I3 episodes (unlucky for some) with the same format as before. This a pity, because I had hoped for some changes in the way Blakes Seven is done. Like getting rid of the dreadful cast! Oh well, I suppose I can dream.

There's a new Sci- fi series coming from Gerry Anderson called The Alpha Man. Roll on those wonderful repeats of Thunderbirds.

Arthur Clarke's science fiction novel 'Rendezvous with Rama' is currently in production for screening in America. I know that does'nt mean much, but here's the crunch, it's being done as an animated cartoon show! I wonder if Arthur knows about this?

They're dusting them down!! Old films that is, apart from "Jaws 2" and other sequelss They're remaking such films as 'When 2 worlds collide' and possibly a new version of 'Clockwork Orange'. What could follow next is best left to the imagination!

Flash G rdon, that buccaneer of space heroes (ugh), is to return to the kleine screen. However the good news is that it will be done as a cartcon show all of his fans (both of them) must be filled with dread.

THE FIRST BRITISH FILM FANTASY CONVENTION.

It will take place at the Bloomsbury Centre Hotel, London W.C.I. It will include two full days of films, panels and dis plays; special guests from the world of films; books and magazines of the genre from Britain, Europe and the United States, all at a central location. The date to remember is the October 28- October 29, the prices are rather high, on the door-both days £5.50 and on the door-1 day only £3.00.

Is it a series? Isit a movie? No, it's a...."STAR TREK" No one seems to know wether "STAR TREK" is an upcoming T.V. Series, a feature film.... or a thing of the past. The B.B.C. seems to think the latter as they are now repeating the first season of the show, which I guess is better than nothing.

Hollywood is being more honest than usual with the sales-line on "Damien-Omen2". "The first time", the ad line runs,"was only a warning." Yeah, not to bother with the sequel!

By Stephen Hooker 5K

SPEEDWAY OF WIMBLEDON

OLE OLE OLE CHAMP CHAMP CHAMP!!!!!! If you hav'nt already heard Ole Olsen, the best export the Danishzszszs fizzle, pop, splutter, have given speedway is the 1978 World Individual Speedway Championship winner. Raced on a superbly prepared track, the Wembley final produced many magic moments for the 86,000 strong crowd to savour. Jerzy Rembas (Poland) won 3 races beating '77 champ Ivan Mauger, Scott Autrey and '74 champ Anders Michanek. Gordon Kennett the leader of the late '261' Squadron-the LBC Rebels-finished in 2nd place in what he described as the best meeting of his life. Scott Autrey got the bronze medal after a run-off with Dave Jessup and Rembas. Jessup was tragically unlucky in that in the races he finished he dropped just I point but in his first race he had to retire with mechanical trouble whilst winning. If he had carried on he would now be the champion and not Olsen. English riders Malcolm Simmons and Mike Lee were 6th and 7th respectively with IO pts and 9 pts each. Ivan Mauger was never in the hunt after a disasterous first ride in which he found the pace just too hot as Olsen and Kennett rounded him on the pits bend and Ivan fell as did his chances of a record breaking 6th world title. Wimbledon interest in the final was through Rembas who loaned one of Ed Jancarz's bikes. Eddie was also his pit helper.

One absentee was Peter Collins who was robbed of afinal place by sabotage. Traces of sugar were found in his petrol tank a few days after the British Final. Here is a full rundown of the World Final scorers: O.Olsen I3, G.Kennett I2, S.Autrey II, D.Jessup II, J.Rembas II, M.Simmons IO, M.Lee 9, I.Mauger 8, J.Titman 7, A.Michanek 7, I.Teromaa 6, M.Cieslak 5, J.Verner 4, J.Andersson 2, J.Stancl 2 and P.Ondrasik O.

Wimbledon riders' progress in the World Championship were as follows: Larry Ross reached the Australasian Final, Rudi Muts got to the Continental semi-finals, Colin Richardson the British semi-finals.

For the Dons the 1978 season has been great, at present they are in the top three teams in the league. During this season they have won away at White City, Bristol, Hackney, Halifax, Wolverhampton, Birmingham and have drawn at Poole. At one stage they were one of the best teams in the land, feared by all the opposition they met. However injury has cut the team in half. The medical profession has done a roaring trade from Plough Lane. Last month Colin Richardson broke a leg riding against an Overseas Select team. Stef Salomonsson broke his collarbone at Poole. Rudi Muts had appendicitis and was out of action for about a month, Colin and Stefan hav'nt put wheel to track since their injuries. Larry Ross injured a hand riding at Eastbourne as well so you can imag -ine the problems of getting a team out to ride each week. As the season draws in team matches at Plough Lane have been more of a 'Spot the fit rider competition!

Against Bristol things came to a head, there were four fit Wimbledon riders, the result was one of the best meetings at Wimbledon in a long, long time. Dons brought in Keith White from Hackney and two Eastbourne reserves who were in the area at the time. They were behind for most of the match but in the last two heats thanks to some great efforts by Cyril Maidment to upset the Bristol team and a brilliant last ride by Ed Jancarz Dons won the match by one point. Alas their luck was not to hold out. Against bottom of the table Wolves they lost at home by 36-42. They simply ran out of riders to use and had to depend on the Wolves to lose the match for them but that did'nt happen so the Dons home record stretching back over a year went.

White City had to close down on the I3th of September after the promoters lost 60,000 pounds in three years of operation. Immediately Dons signed Steve Weatherley and Trevor Geer from them and rode them against Kings Lynn Dons won and things look rosy again but a week later the British Speedway Promoters Association ruled that it was illegal to sign any of the White City riders. So Dons were bach to square one and lost to Belle Vue at home 38-40. Roger Johns showed Peter Collins his back wheel in two marvellous races during the laegue match and went on to complete a memorable maximum.

Ole Olsen led Denmark to the World Team Cup in Germany. Poland led by Jancarz were third behind England and infront of Czechoslovakia. Denmark 37 England 27 Poland I6 Czechoslovakia I6.

The race for the title seems to be between Belle Vue and Coventry, but Hull are coming up on the rails. The Speedway Star Cup final is between Ipswich and Belle Vue so the Aces are on for a double!

Egon Muller won the IOOO metre final with Alois Weisbock second and Pete Collins 3rd In the next issue we will have a report on the Gauloises sponsored National League rider's championship, until then happy speedwaying.

DIRT TRACK + WHEEL CHANGE!

OPEN VIEW

NEW VOTERS ASK THEIR QUESTIONS.

Wandsworth School's head boy, Michael Coke, and his deputy, Crispin Lyden-Cowan, organ--ised a stimulating political meeting in the Main School Hall on Thursday afternoon. It was a good start to a series called "Open Views".

All the major parties were represented; Labour by the Putney Member of Parliament Hugh Jenkins, the Conservatives by their Parliamentary candidate David Mellor, a Wands--worth School Governor; and the Liberals by their candidate Gerald Mulholland. The aud--ience consisted mainly of 5th and 6th year boys with some girls from Mayfield and some school staff, who had been asked to remain in the background to give the young a chance.

There was a steady stream of questions asked by articulate young people with great confidence, and answered very fully. They covered such issues as the political parties employment of professional advertising agencies, the causes of juvenile crime, defence spending, immigration, Party Political broadcasts, the possible conflicts of loyalties for M.P.'s to their party and to their constituency , the suggested lack of distinction between the parties, and the private sector in education.

The differences in the politicians views were expressed clearly in their answers. All three showed a serious deep-seated conviction in their own stand point which won them the respect of the meeting. Although it would be true to say that most of the audience sympathised with Mr. Jenkins, both Mr. Mellor and Mr. Mulholland held their own.

News Contact,
Elizabeth al Qadhi,
Wandsworth School.

DATE:
Sunday 22nd October, 1978
LEG IT FOR TASK FORCE A SPONSORED WALK.

PLACE:
Battersea Park, London.

START:
From 9a.m.

FINISH:
By 4.30p.m.

DISTANCE:
The maximum walk is 20 laps (approximately)-15 miles; remember no-one should try and walk fur--ther than they are able.

INSTRUCTIONS AND INFORMATION.

You will be given final instructions and transport details at a meeting of all walkers and helpers to be held at your school before the walk.
Free transport will be provided to Battersea Park, if you come on the Task Force coach you should return on it unless you make other arrangements in advance and tell the steward on your coach.
Remember to bring your sponser form with you to Battersea Park.
The walk will be full y marshalled and first aid will be available.
Further details are given on the sponser forms, which will be given out at year assemblies.

DEBATE PAGE

We have received this letter from Steve Pederson formerly of 5K, it is published exactly as he gave it to us.

Dear Cactus,

I am writing this letter to inform you of the discontentment felt by many people in the school including myself. This discontentment arises because of the way in which you present Cactus. We are perturbed by your constant references to socio-political problems in our society today and hope you will take a more liberal line in future editions. We would like to see more about the school ,careers, clubs etc. Your content seems to be based around the same monotonous things and the content seems to be what the editorial staff like and not what the mass populace of the school requires. Your debate page, which I assume is supposed to present two opposite points of view unbiasedly fails drastically to do this. A classic example is the question of fascism Cactus is evidently anti-fascist which is commendable but to give a biased view in Cactus as a whole is undesirable because it misses the points of the actual debate. If Cactus does preach its political beliefs however good they may be it must take responsibility of influencing the lower part of the school, (Ist and 2nd years). Your ideals could be accepted in two major ways, one for you, the other againstyou. These diverse attitudes which people will take causes tension between the two sectors e.g racial tension! So Cactus we implore you, please for everyonéssake change your line to a more liberal approach.

signed Steve Pederson (Fuse)

Ed:

Thanks for the letter Steve, its a shame other such people who have as strong views as you can't be bothered to send in letters. However I feel that you are expressing views that are extremely inflated. For example you state;

"We are perturbed by your constsant references to socio- political problems in our society today,and hope you will take a more liberal line in future editions."

May I ask what constant references? The only occasions where socio-political prob--lems are mentioned,are in the debate page,which has only existed since edition nine and constitutes just one of the twelve pages in Cactus.Is this constant references? You continue by asking Cactus to take a more liberal line.Since the National Front debate has begun,we have printed every single letter that has been written to us (except one obscene,unprintable letter).It is true that we have printed more anti NF material than pro-NF material,but this is only because we have received more anti-NF material.Hence,by publishing each letter we have received,I cannot comprehend how we can be branded as biased.

You then continue to say that:

"These diverse attitudes which people will take cause tension between the two sectors eg. racial tension!" This last part of your letter is ridiculous. If Cactus is biased,as you claim,then blacks,Asians etc. will realise that there are organisations which defend them.Surely this will create racial harmony between the two bodies. Any opposition will always be racist regardless of the newspaper's political beliefs,thus I cannot see how Cactus creates racial tension.

Your other main complaint is the lack of new material presently in the newspaper. Cactus depends almost entirely on outside sources (the pupils and teachers) for articles.Recently very few articles have arrived at the office.This means that members of the editorial staff have been forced to write 'filler' articles which might not be as interesting and as varied as the received articles.

!

Cactus is your school magazine,for us to survive you must support the magazine. We are a non-profit making project that has been running successfully for over a year. We need articles,quizes,jokes,illustrations,stories,reviews etc. to continue our existance.This is your chance to voice your views on the running of your school.Is there anthing that annoys you about the school? If there is,tell us,it is an excellent method of publicising greviances so that something can be done abuot it.We will print any article that we receive,so long as it is not offensive or grossly obscene (space permitting)!There are collecting boxes for your articles in the lower school staffroom and the library in the main school that are regularly emptied by our staff.If there is anything that you would like to sell such as bikes, mothers, dead rats, half eaten chewing gum, you know the sort then send in an advertisement and we will print it free of charge. Remember to include your name and form.

The paper costs 3 pence which contributes to the printing and paper costs of Cactus. We stress that we make no profit for ourselves nor anyone else.Should you wish to join the Cactus staff. (can you spell?If you can you're not applicable) please see our editors;Miss Ackerman of the English department (long may she reign) and ~~Mme.~~ ~~Miss~~ ~~Mrs~~.H.Potter of 6C.

PLEASE SUPPORT YOUR MAGAZINE.

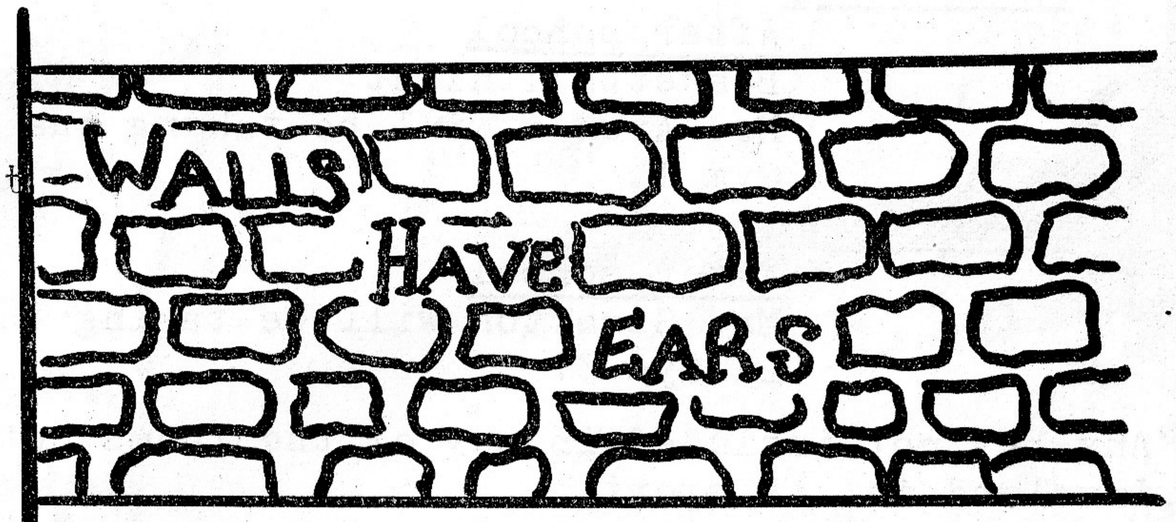

THE AFTER SCHOOL ACTIVITIES

The after school activities, as yet have not begun. However, we have been told by Mr. Finbow, that all the activities organised last year will be continued with the adition of some other clubs. For example Mr. Allen is hoping to start a photography club. If any-one would like to join this club, please could you see Mr. Allen as the membership must be restricted to less than 20. Also, Mr. Finbow has found a great deal of Scalec-trix track, so if anyone wants to organise a Scalectrix club, find a willing member of staff and see Mr. Finbow. However, for any club to be able to run, it must have a mem-ber of staff to supervise it. So, please would all members of staff who helped last year see Mr. Finbow (this also applies to any member of staff who is interested).

A full list of after school activities will be printed in a future edition of Cactus.

IMPORTANT NOTICE

Gary Dark of 3 Gamma would like to organise a fishing club,and he needs a member of staff to help him organ--ise it.Would any member of staff who is interested please see him.

RUMOUR HAS IT THAT.....

Mr. Allen only wants to start a photo-graphy club on the off chance of getting hold of two 16-year old 'Brownies'.....

For anyone wishing to tackle T.Wellbelov-e on a rugby field should remember that 'Weebles wobble but they don't fall down!.

John Potter was a 7 stone weakling until he went on his recent diet.....

X

Lots of people missed the school during the summer holidays. I will be giving lessons to improve their throwing to ensur-e that they will hit it the next time....

By Mustapha Gossip

SPORT

Carried on from last year the P.E. Department will be holding training sessions for the school teams during the lunch periods and after school. The training sessions with the time and the teacher taking the session are printed below:

On Monday

Lunch time

At I2.30 Mr. Williams will be taking a Gym club in Gym I. Anyone inter-ested in gymnastics must contact Mr. Williams

After school

Mr. Read will be taking the 4th year football team for training in Gym 3.
Mr. Griffiths will be taking the 3rd year ~~ruby~~ rugby team for training in Gym 2.

On Tuesday

After school

Mr. Williams will be taking the Lst fifteen and the 2nd fifteen rugby teams for training in Gym 1.

On Wednesday

After school

Mr. Williams will be taking the 4th year rugby team for training in Gym /3.
Mr. Snare will be taking the 2nd year rugby team for training in Gym I.
Mr. Owen will be taking the Ist year rugby team for training in Gym 2.

On Thursday

After school

Basketball night
Mr. Archer will be taking the 2nd year football team for training in Gym I.

On Friday

After school

Mr. Stratton will be taking the 3rd year football team for training in Gym 3.

Any boy not included in any of the teams but would like to be should see the teacher involved in the sport.

SOCCER RESULTS

V. Spencer Park	U.I3	won 8-2
	U.I4	won 5-0
V. Beaufoy	Ist XI	lost I-4
	U.I5	lost 0-5
	U.I3	lost 2-9
V. Elliott	Ist XI	won 5-2

Contrary to pre-season expectations the Ist XI show immense promise for the forth-coming months. The impetus added by the 5th years Chris Nelson and David Stewart tog-ether with George Stollery's abiLity to play like a man of double his years has given considerable hope. The Elliott result was well deserved with Chris Nelson playing particularly well. The Beaufoy game with the opposition always strong was of an extre-ely high standard. The maturity K. Hardie has added to the back four has been an un-expected bonus. With the prospect of WIMBLEDONIAN Mickey Belfield playing midweek things look rosy for the coming season.

Contributed by Mr. Stratton.
